

Architectural and Engineering Companies

This listing includes companies that design and engineer systems and facilities to handle a range of powder and bulk products. We welcome your suggestions for companies not listed here and will include applicable information in our next Reference & Buyer's Resource issue. Contact Kayla Carrigan, Associate Editor, Powder and Bulk Engineering, 1155 Northland Drive, St. Paul, MN 55120; 651-287-5630, fax 651-287-5650 (kcarrigan@cscpub.com).

Note: Listed companies may be licensed in multiple locations. Please contact companies for more information.

ALABAMA

Applied Chemical Technology
4350 Helton Dr.
Florence, AL 35630
256-760-9600
256-760-9638 fax
act@appliedchemical.com
www.appliedchemical.com
Contact: Alan Nix

Expertise: Engineering, design fabrication, process and product development, and standard and custom equipment.

CALIFORNIA

E. A. Bonelli + Associates
8450 Edes Ave.
Oakland, CA 94621
510-740-0155
510-740-0160 fax

Contact: William Dick

Expertise: Plant and process layouts, including material handling systems, industrial ventilation and air pollution control; process development, integration, and automation; electrical power and control distribution services; and complete industrial building design, safety analysis, and environmental compliance.

Seneca Experts-Conseils
7100 Rue Jean-Talon E, Bureau 410
Anjou, QC H1M 3S3
514-353-4443
514-353-8215 fax
seneca@seneca.ca
www.seneca.ca
Contact: Cynthia Tar

Expertise: Process, mechanical, electrical, and instrumentation engineering and EPCM services for the metallurgy, chemical, pharmaceutical, and food industries for various equipment and applications, including conveying, bulk loading and unloading, feeders, reactors, mixers, blenders, packaging, labeling, palletizing, shipping, storage, environmental abatement, automation, communications, and data management.

DELAWARE

Messick & Gray
9003 Fawn Rd.
Bridgeville, DE 19933
302-337-8777
302-337-3121 fax
alan.messick@messickandgray.com
Contact: Alan Messick

Expertise: Equipment selection and procurement; design, fabrication, and installation of turnkey material storage and conveying systems.

FLORIDA

DcR Engineering Services
3110 Cherry Palm Dr., Ste. 290
Tampa, FL 33619
813-418-3340
813-418-3355 fax
david.bulluck@dcrceng.com
www.dcreng.com
Contact: David Bulluck

Expertise: Full-service engineering, design, fabrication, and construction services. Specializes in bulk material handling systems, process controls and automation, ASME pressure vessels, API tanks, and piping fabrication. Serves chemical processing, fertilizer, food and beverage, cement, aggregates, mining, pharmaceutical, and manufacturing industries. Offers expertise in ARC flash hazard analysis, 3D design modeling, and laser scanning.

Haskell
111 Riverside Ave.
Jacksonville, FL 32202
904-791-4529
904-791-4699 fax
info@haskell.com
www.haskell.com
Contact: Ronald Vallort

Expertise: Architectural engineering, design, and construction services for the food industry, including processing, distribution, refrigeration, and storage.

RSO Services
PO Box 575
Niceville, FL 32588
850-651-0777
866-254-3211 fax
info@rsoservices.com
www.rsoservices.com
Contact: Robert Harrison

Expertise: Engineering and consulting services; radiation services for radioactive and X-ray

sources; and nuclear source disposals.

Stellar
2900 Hartley Rd.
Jacksonville, FL 32257
904-260-2900
904-268-4932 fax
info@stellar.net
www.stellar.net
Contact: Lee A. Robbins

Expertise: Architecture, engineering, and construction for food processing plants.

GEORGIA

Facility Design Group
2233 Lake Park Dr.
Smyrna, GA 30080
770-437-2700
info@fdgatlanta.com
www.fdgatlanta.com
Contact: Judy Sparks

Expertise: Planning, design, engineering, and construction management services for renovation, expansion, and new construction of distribution centers and food processing plants.

Larson Engineering of Georgia
5950 Live Oak Pkwy., Ste. 300
Norcross, GA 30093
770-279-6010
770-279-6015 fax
hrintakoski@larsonengr.com
www.larsonengr.com
Contact: Heikki Rinta-Koski

Expertise: Engineering for bulk material handling, including design of loading and unloading systems, storage facilities, and controls for incoming feedstock and chemicals; civil and structural engineering for material handling projects; and biomass handling, including receiving, conveying, storing, screening, and resizing systems.

Weatherly
1100 Spring St. NW, Ste. 800
Atlanta, GA 30309
404-873-5030
404-873-1303 fax
info@weatherlyinc.com
www.weatherlyinc.com
Contact: Tom Saulnier

Expertise: Manufacturing plants for producing nitric acid, ammonium nitrate, urea, NPK, DAP, TSP, and calcium ammonium nitrate for the fertilizer industry, as well as process projects.

IDAHO

Alpha Engineers
850 S Main St.
Pocatello, ID 83204
208-232-8045
ed.williams@alphaeng.com
www.alphaeng.com
Contact: Eddy A. Williams

Expertise: Equipment and systems design for conveying and processing industrial bulk materials, including crushing, grinding, drying, classifying, mixing, wetting, feeding, slurring, storing, stacking, loading, unloading, and combusting various materials, and containing and controlling dust and hazardous materials.

Engineering System Solutions (ES2)
4943 N 29th E, Ste. A
Idaho Falls, ID 83401
208-552-9874
208-552-9302 fax
doug@es2eng.com
www.es2eng.com
Contact: Doug Weber

Expertise: Designs bulk material handling projects in the US, Canada, South America, Europe, Asia, Micronesia, and Africa. Company designs complete solutions for bulk material handling, storage, reclaim, and associated systems; with the capability to take projects from concept to startup. Serves the energy (biomass and coal), cement, fly ash, food (grain, process sugar, and raw sugar), fertilizers (granular), and mining industries. Expertise in various foundation solutions and structural expertise, such as tunnels and thin-shell domes.

POWER Engineers
2041 S Cobalt Point Way
Meridian, ID 83642
208-288-6100
208-288-6199 fax
foodandbeverage@powereng.com
www.powereng.com
Contact: Don Hodapp

Expertise: Engineering services for the food, dairy, and beverage industries, including designing, consolidating, or relocating process and packaging lines; process controls and systems integration; food safety; and project and construction management.

ILLINOIS

A. Epstein and Sons International
600 W Fulton St.
Chicago, IL 60661

312-454-9100
312-559-1217 fax
information@epsteinglobal.com
www.epsteinglobal.com

Expertise: Process and automation engineering, facility design, construction management, material handling, and refrigeration services for international food processors and distributors.

Patrick Engineering
4970 Varsity Dr.
Lisle, IL 60532
800-799-7050
630-724-1681 fax
info@patrickco.com
www.patrickengineering.com

Expertise: Engineering, building design, planning, technology consulting, and construction management.

SPEC Engineering
25523 W Ruff St.
Plainfield, IL 60585
815-676-5006
630-303-9090 fax
info@specengsys.com
www.specengsys.com
Contact: Meredith Nocera

Expertise: Specializes in custom-designed process systems for the food, grain, mineral, chemical, and pharmaceutical industries. Company offers specific technology, materials, and equipment best for feeding, conveying, mixing, blending, storing, sizing, drying, filtering, weighing, and processing of material.

True North Engineering
538 W 5th Ave.
Naperville, IL 60563
866-563-3600
info@truenorth-eng.com
www.truenorth-eng.com

Expertise: Planning, designing, and engineering process, packaging, and material handling systems for bulk powder handling in all industrial applications; civil, mechanical, electrical, control, and field engineering for complete projects.

INDIANA

Biomass Engineering & Equipment
50 Washington St., Suite 3B
Columbus, IN 47201
317-522-0864
info@beande.net
www.biomassengineering
equipment.com

Expertise: Specializes in design, fabrication, and installation of

bulk material handling equipment, material metering solutions, screens, chippers, bins, storage buildings, and mobile storage.

Kirk & Blum
3501 W Kelly St.
Indianapolis, IN 46242
317-244-3383
317-243-1244 fax
kb.indy@kirkblum.com
www.kirkblum.com
Contact: Bill Nelson

Expertise: Design, fabrication, and installation of process ventilation and dust collection systems and equipment such as baghouses, cartridge collectors, scrubbers, mist units, and regenerative thermal oxidizers.

Schust Engineering
701 North Street
Auburn, IN 46706
800-686-9297
260-925-6093 fax
dpatton@schustengineering.com
www.schustengineering.com
Contact: Dan Patton

Expertise: Dust collection and industrial ventilation engineering, duct system engineering, complete system design, fabrication, installation, project management, and turnkey capabilities. Company's products include custom and standard baghouses, pleated-filter dust collectors, and bin vent dust collectors. Company can also perform plant audits, inspection services, provide system performance guarantees for outlet emissions, and create specialty capture-hood designs.

IOWA

Agro Globe Engineering
8191 Birchwood Ct., Ste. G
Johnston, IA 50131
515-251-7415
515-251-7416 fax
info@agro-globe.com
www.agro-globe.com
Contact: Ed Stephenson

Expertise: Design-and-build company offers a comprehensive approach, including project management, engineering, construction management, and equipment procurement. Company specializes in seed and grain processing facilities.

KANSAS

Borton
200 E First Ave.
Hutchinson, KS 67501
620-669-8211
620-662-3225 fax
borton@borton.biz
www.borton.biz
Contact: Borton

Expertise: Bulk material handling systems, slip-form construction, and facility modernization as well as complete design and construction services.

Chubb Engineering
210 S 18th St.
Parsons, KS 67357
620-421-3351
620-421-3733 fax
shedd@chubbengineering.com
www.chubbengineering.com
Contact: Kevin Sheddrick

Expertise: Provides OEM structural designs for storage tanks and bins, filter and dust collector columns and bracing, industrial equipment support structures, predictive evaluation for explosion protection, pipe bridges, platforms, ladders, walking surfaces, and miscellaneous structures used in the dry bulk solids and liquid material handling industry. Serves the food, chemical, mining, wastewater, water, and other industries storing, handling, and processing dry and liquid bulk materials.

KENTUCKY

Apex Bulk Technologies
326 E 5th Ave.
Calvert City, KY 42029
270-395-4121
270-395-4123 fax
www.apex-engineering.com
Contact: W. Edward Barker

Expertise: Engineering services, including structural, mechanical, electrical, and controls for bulk material handling, conveying, feeding, storing, sampling, screening, weighing, blending, and loading per Handbook 44.

Matrix Engineering
112 Walter Jetton Blvd.
PO Box 1698
Paducah, KY 42002-1698
270-442-5600
270-442-0061 fax
matrix@matrixengineer.com
www.matrixengineer.com
Contact: Michael T. Eck, R. Darren Jarvis

Expertise: Engineering services for bulk material handling, pneumatic conveying, bin discharging, blending, food-grade applications, control systems, screening, size reduction, and ground petroleum coke systems.

VITOK Engineers
1900 Plantside Dr.
Louisville, KY 40299
502-426-7770
502-426-7775 fax
cda@vitok.com
www.vitok.com
Contact: CJ Archer

Expertise: Engineering and design services for the chemical process, food, beverage, and manufacturing industries.

LOUISIANA

GHD
5551 Corporate Blvd., Ste. 200
Baton Rouge, LA 70808
225-292-9007
www.ghd.com
Contact: David E. Hill

Expertise: Process, mechanical, instrumentation, extrusion, and material handling engineering for the chemical and petrochemical industries.

MICHIGAN

C2AE
106 W. Allegan St., Ste. 500
Lansing, MI 48933
517-371-1200
517-371-2013 fax

Contact: Teresa Brundage

Expertise: Architecture; civil, electrical, mechanical, structural, transportation, and water and wastewater engineering; and surveying.

MINNESOTA

Larson Engineering
3524 Labore Rd.
White Bear Lake, MN 55110
651-481-9120
651-481-9201 fax
info@larsonengr.com
www.larsonengr.com
Contact: Lee Granquist

Expertise: Engineering for bulk material handling, including design of loading and unloading systems,

conveyors, storage facilities, and scales.

T.E. Ibberson
828 5th St. S
Hopkins, MN 55343
952-938-7007
952-939-0451 fax
tei@ibberson.com
www.ibberson.com
Contact: Steve Schmitt

Expertise: Design, engineering, and construction of storage and process facilities for the food, grain, and pet food industries.

Unified Theory
1811 Weir Dr., Ste. 365
St. Paul, MN 55125
651-578-8100
651-578-8200 fax
mherron@utieng.com
www.utieng.com
Contact: Michael Herron

Expertise: Engineering, evaluating, fan and filter selecting, troubleshooting, industrial facility designing, process designing, controls, and fume and dust control systems for the food, chemical, pharmaceutical, weblines, metals, and grain-handling industries.

VAA (formerly Van Sickle, Allen & Associates)
2300 Berkshire Ln. N, Ste. 200
Plymouth, MN 55441
763-559-9100
763-559-0378 fax
info@vaaeng.com
www.vaaeng.com
Contact: Vlad Dain

Expertise: Twin-Cities-based engineering firm specializing in agribusiness and industrial markets for well-known national companies. Founded in 1978, the firm specializes in bulk processing facilities, including material handling, transportation, and export. Firm offers master planning, life-safety code analyses; track design and civil, structural, marine, mechanical, process, and electrical engineering services.

Wolf Material Handling Systems
17834 Industrial Cir., Ste. 5
Elk River, MN 55330
763-576-9040
763-576-9070 fax
info@wolfmhs.com
www.wolfmhs.com
Contact: Mel Paich

Expertise: Design, engineering, and fabrication of bulk material handling equipment, including belt, drag, en masse, chain, apron, flexible sidewall, chain-belt, and screw conveyors,

bucket elevators, belt feeders, trippers, stackers, reclaimers, and metering bins.

MISSOURI

Burns & McDonnell Process & Industrial Group
9400 Ward Pkwy.
Kansas City, MO 64114
