

ARCHITECTURAL AND ENGINEERING COMPANIES

This listing includes companies that design and engineer systems and facilities to handle a range of powder and bulk products. We welcome your suggestions for companies not listed here and will include applicable information in our next Reference & Buyer's Resource issue. Contact Kayla Carrigan, Senior Editor, *Powder and Bulk Engineering*, 1155 Northland Drive, St. Paul, MN 55120; 651-287-5630 (kcarrigan@cscpub.com).

Note: Listed companies may be licensed in multiple locations. Please contact companies for more information.

ALABAMA

Applied Chemical Technology

4350 Helton Dr.
Florence, AL 35630
256-760-9600
act@appliedchemical.com
www.appliedchemical.com
Contact: Josh McGill

Expertise: Engineering, design fabrication, process and product development, and standard and custom equipment.

CALIFORNIA

E. A. Bonelli + Associates

8450 Edes Ave.
Oakland, CA 94621
510-740-0155
marco@eabonelli.com
www.eabonelli.com
Contact: Marco Di Gino

Expertise: Architecture, design, and engineering for the food industry.

Foodpro International

PO Box 1119
Stockton, CA 95202
209-943-8400
info@foodpro.net
www.foodpro.net
Contact: Olga Osipova

Expertise: Consulting engineer specializing in food processing and distribution and facility design.

CANADA

Coprodev

1440 Rue Graham-Bell
Boucherville, QC J4B 6H5
450-449-3350
jdbedard@coprodev.com
www.coprodev.com
Contact: J. Denis Bedard

Expertise: Manufacturing process automation, including custom equipment for the food and beverage industries.

Hatch Ltd.

Sheridan Science & Technology Park
2800 Speakman Dr.
Mississauga, ON L5K 2R7
905-855-7600
frank.porretta@hatch.com
www.hatch.com
Contact: Frank Porretta

Expertise: Complete engineering and EPCM services for the mining, metals, energy, and infrastructure industries, including bulk solids handling, minerals beneficiation, pyrometallurgy, hydrometallurgy, and environmental applications.

HD Engineering & Design

202 Gladstone Crescent
Saskatoon, SK S7P 0C7
306-249-3090
info@hdengineeringdesign.com
www.hdengineeringdesign.com
Contact: Rory Duncan

Expertise: Full-service engineering, design, and project management company. Specializes in the engineering and design of bulk material handling systems, including conveyors, bins, feeders, and dust collectors. Company uses discrete element modeling (DEM) software to minimize dust,

wear, and material degradation in processes. Serves the potash, uranium, coal, gold, agricultural, and oil and gas industries.

IBI Group

175 Galaxy Blvd., Unit 100
Toronto, ON M9W 0C9
416-679-1930
alexandre.haddad@ibigroup.com
www.ibigroup.com
Contact: Alex Haddad

Expertise: Industrial process and building design, consulting and engineering services in process controls and instrumentation, material handling, plant layout, waste treatment, warehousing, logistics, packaging and maintenance systems, and project management.

KSH-DEI Solutions

1 Concorde Gate, Ste. 300
Toronto, ON M3C 3N6
416-391-2322
wdick@ksh.ca
www.ksh.ca
Contact: William Dick

Expertise: Plant and process layouts, including material handling systems, industrial ventilation, and air pollution control; process development, integration, and automation; electrical power and control distribution services; and complete industrial building design, safety analysis, and environmental compliance.

Seneca Experts-Conseils

7100 Rue Jean-Talon E, Bureau 410
Anjou, QC H1M 3S3
514-353-4443
seneca@seneca.ca
www.seneca.ca
Contact: Cynthia Tar

Expertise: Process, mechanical, electrical, and instrumentation engineering and EPCM services for the metallurgy, chemical, pharmaceutical, and food industries for various equipment and applications, including conveying, bulk loading and unloading, feeders, reactors, mixers, blenders, packaging, labeling, palletizing, shipping, storage, environmental abatement, automation, communications, and data management.

COLORADO

Zap Engineering & Construction Services

333 South Allison Pkwy., Ste. 100
Lakewood, CO 80226
720-529-4430
anundsene@zapecs.com
www.zapecs.com
Contact: Evan Anundsen

Expertise: Full-service engineering and construction management company with decades of experience and a diverse staff with focused knowledge in the material handling, mining and minerals processing, power generation, oil and gas, and specialty chemical industries. In-house engineering services include process, mechanical, electrical, instrumentation and controls, and civil and structural engineering.

DELAWARE

Messick & Gray

9003 Fawn Rd.
Bridgeville, DE 19933
302-337-8777
alan.messick@messickandgray.com
www.messickandgray.com
Contact: Alan Messick

Expertise: Equipment selection and procurement; design, fabrication, and installation of turnkey material storage and conveying systems.

FLORIDA

Haskell

111 Riverside Ave.
Jacksonville, FL 32202
904-791-4500
info@haskell.com
www.haskell.com

Expertise: Architectural engineering, design, and construction services for the food industry, including processing, distribution, refrigeration, and storage.

RSO Services

PO Box 575
Niceville, FL 32588
850-651-0777
info@rsoservices.com
www.rsoservices.com
Contact: Robert Harrison

Expertise: Engineering and consulting services, radiation services for radioactive and X-ray sources, and nuclear source disposals.

Stellar

2900 Hartley Rd.
Jacksonville, FL 32257
904-260-2900
info@stellar.net
www.stellar.net
Contact: Lee A. Robbins

Expertise: Architecture, engineering, and construction for food processing plants.

GEORGIA

Arthur Engineering

1006 Millen Hwy.
Sylvania, GA 30467
912-499-1600
info@arthur-engineering.com
www.arthur-engineering.com
Contact: William B. Arthur

Expertise: Engineering, design, and consulting services and 3D modeling using laser scanning, sizing and specifying equipment, process engineering, mechanical engineering, structural engineering, piping design, and electrical and instrumentation. Industrial ductwork design, fume and dust collection, pneumatic conveying, and raw material handling expertise, along with process safety management and dust hazards analysis consulting.

Facility Design Group

30 Stone Mill Cir.
Newnan, GA 30265
770-437-2700
info@fdgatlanta.com
www.fdgatlanta.com

Expertise: Planning, design, engineering, and construction management services for renovation, expansion, and new construction of distribution centers and food processing plants.

Larson Engineering of Georgia

5950 Live Oak Pkwy., Ste. 300
Norcross, GA 30093
770-279-6010
hrintakoski@larsonengr.com
www.larsonengr.com
Contact: Heikki Rinta-Koski

Expertise: Engineering for bulk material handling, including design of loading and unloading systems, storage facilities, and controls for incoming feedstock and chemicals; civil and structural engineering for material handling projects; and biomass handling, including receiving, conveying, storing, screening, and resizing systems.

IDAHO

Alpha Engineers

850 S Main St.
Pocatello, ID 83204
208-232-8045
ed.williams@alphaeng.com
www.alphaeng.com
Contact: Eddy A. Williams

Expertise: Equipment and systems design for conveying and processing industrial bulk materials, including crushing, grinding, drying, classifying, mixing, wetting, feeding, slurring, storing, stacking, loading, unloading, and combusting various materials. Specializes in containing and controlling dust and hazardous materials.

Engineering System Solutions (ES2)

4943 N 29th E, Ste. A
Idaho Falls, ID 83401
208-552-9874
doug.weber@es2eng.com
www.es2eng.com
Contact: Doug Weber

Expertise: Designs bulk material handling projects in the US, Canada, South America, Europe, Asia, Micronesia, and Africa. Company designs complete solutions for bulk material handling, storage, reclaim, and associated systems; with the capability to take projects from concept to startup. Serves the energy (biomass and coal), cement, fly ash, food (grain, process sugar, and raw sugar), fertilizers (granular), and mining industries. Expertise in various foundation solutions and structural expertise, such as tunnels and thin-shell domes.

POWER Engineers

2041 S Cobalt Point Way
Meridian, ID 83642
208-288-6100
foodandbeverage@powereng.com
www.powereng.com
Contact: Don Hodapp

Expertise: Engineering services for the food, dairy, and beverage industries, including designing, consolidating, or relocating process and packaging lines; process controls and systems

integration; food safety; and project and construction management.

ILLINOIS

A. Epstein and Sons International

600 W Fulton St.
Chicago, IL 60661
312-454-9100
info@epsteinglobal.com
www.epsteinglobal.com

Expertise: Process and automation engineering, facility design, construction management, material handling, and refrigeration services for international food processors and distributors.

Patrick Engineering

4970 Varsity Dr.
Lisle, IL 60532
800-799-7050
info@patrickco.com
www.patrickengineering.com

Expertise: Engineering, building design, planning, technology consulting, and construction management.

Spec Engineering

25523 W Ruff St.
Plainfield, IL 60585
815-676-5006
info@specengsys.com
www.specengsys.com
Contact: Amanda Rodriguez

Expertise: Single source for system design and process instrumentation since 1979, including custom equipment and technology solutions. Specializes in storing, feeding, conveying, mixing, blending, batching controls, and automation in the food and beverage, bakery and confectioners, pet food, specialty chemical, plastics, minerals and concrete, nutraceuticals and nutritional, coatings, and metal powder industries.

True North Engineering

538 W 5th Ave.
Naperville, IL 60563
866-563-3600
info@truenorth-eng.com
www.truenorth-eng.com

Expertise: Planning, designing, and engineering process, packaging, and material handling systems for bulk powder handling in all industrial applications; civil, mechanical, electrical, control, and field engineering for complete projects.

INDIANA

Biomass Engineering & Equipment

5851 S Harding St.
Indianapolis, IN 46217
317-522-0864
info@biomassengineering.com
www.biomassengineering.com
equipment.com

Expertise: Specializes in design, fabrication, and installation of bulk material handling equipment, material metering solutions, screens, chippers, bins, storage buildings, and mobile storage.

CECO Kirk & Blum

6040 Guion Rd.
Indianapolis, IN 46254
317-495-7085
bkerkhoff@onececo.com
www.cecoenviro.com/kirk-blum
Contact: Brad H. Kerkhoff

Expertise: Design, fabrication, and installation of process ventilation and dust collection systems and equipment such as baghouses, cartridge collectors, scrubbers, mist units, and regenerative thermal oxidizers.

Schust Engineering

701 North St.
Auburn, IN 46706
800-686-9297
dpatton@schustengineering.com
www.schust.com
Contact: Dan Patton

Expertise: Dust collection and industrial ventilation engineering, duct system engineering, complete system design, fabrication, installation, project management, and turnkey capabilities. Company's products include custom and standard baghouses, pleated-filter dust collectors, and bin vent dust collectors. Company can also perform plant audits and inspection services, provide system performance guarantees for outlet emissions, and create specialty capture-hood designs.

KANSAS

Borton

21 Des Moines Ave.
South Hutchinson, KS 67505
620-669-8211
info@borton.net
www.borton.net
Contact: Borton

Expertise: Bulk material handling systems, slip-form construction, and facility modernization as well as complete design and construction services.

Chubb Engineering

210 S 18th St.
Parsons, KS 67357
620-421-3351
shedd@chubbengineering.com
www.chubbengineering.com
Contact: Kevin Shedrick

Expertise: Provides OEM structural designs for storage tanks and bins, filter and dust collector columns and bracing, industrial equipment support structures, predictive evaluation for explosion protection, pipe bridges, platforms, ladders, walking surfaces, and miscellaneous structures used in the dry bulk solids and liquid material handling industry. Serves the food, chemical, mining, wastewater, water, and other industries that store, handle, and process dry and liquid bulk materials.

KENTUCKY

Apex Bulk Technologies

326 E 5th Ave.
Calvert City, KY 42029
270-395-4121
www.apex-engineering.com
Contact: W. Edward Barker

Expertise: Engineering services, including structural, mechanical, electrical, and controls for bulk material handling, conveying, feeding, storing, sampling, screening, weighing, blending, and loading per NIST Handbook 44.

Matrix Engineering

112 Walter Jetton Blvd.
PO Box 1698
Paducah, KY 42001
270-442-5600
matrix@matrixengineer.com
www.matrixengineer.com
Contact: Michael T. Eck, R. Darren Jarvis

Expertise: Engineering services for bulk material handling, pneumatic conveying, bin discharging, blending, food-grade applications, control systems, screening, size reduction, and ground petroleum coke systems.

VITOK Engineers

1900 Plantside Dr.
Louisville, KY 40299
502-426-7770
cda@vitok.com
www.vitok.com
Contact: CJ Archer

Expertise: Engineering and design services for the chemical process, food, beverage, and manufacturing industries.

LOUISIANA

GHD

5551 Corporate Blvd., Ste. 200
Baton Rouge, LA 70808
225-292-9007
www.ghd.com
Contact: David E. Hill

Expertise: Process, mechanical, instrumentation, extrusion, and material handling engineering for the chemical and petrochemical industries.

MICHIGAN

C2AE

106 W Allegan St., Ste. 500
Lansing, MI 48933
517-371-1200
info@c2ae.com
www.c2ae.com
Contact: Teresa Brundage

Expertise: Architecture; civil, electrical, mechanical, structural, transportation, and water and wastewater engineering; and surveying.

MINNESOTA

Larson Engineering

3524 Labore Rd.
White Bear Lake, MN 55110
651-481-9120
info-mn@larsonengr.com
www.larsonengr.com
Contact: Lee Granquist

Expertise: Engineering for bulk material handling, including design of loading and unloading systems, conveyors, storage facilities, and scales.

T.E. Ibberson

5601 Green Valley Dr., Ste. 700
Bloomington, MN 55437
612-439-6700
tei@ibberson.com
www.ibberson.com
Contact: Steve Schmitt

Expertise: Preconstruction, feasibility studies, estimating, design and engineering, procurement, construction, equipment installation, and construction management for existing facility expansion and

renovation to new facilities. Facility maintenance and shutdowns.

Unified Theory

1811 Weir Dr., Ste. 365
Woodbury, MN 55125
651-578-8100
mherron@utieng.com
www.utieng.com
Contact: Michael Herron

Expertise: Engineering, evaluating, fan and filter selecting, troubleshooting, industrial facility designing, process designing, controls, and fume and dust control systems for the food, chemical, pharmaceutical, webline, metals, and grain handling industries.

VAA

2300 Berkshire Ln. N, Ste. 200
Plymouth, MN 55441
763-559-9100
info@vaaeng.com
www.vaaeng.com
Contact: Vlad Dain

Expertise: Twin Cities-based engineering firm specializing in agribusiness and industrial markets for national companies. Founded in 1978, the firm specializes in bulk processing facilities, including material handling, transportation, and export. Firm offers master planning, life-safety code analyses; track design and civil, structural, marine, mechanical, process, and electrical engineering services.

Wolf Material Handling Systems

12680 Industrial Cir., Ste. 5
Elk River, MN 55330
763-576-9040
info@wolfmhs.com
www.wolfmhs.com
Contact: Mel Paich

Expertise: Design, engineering, and fabrication of bulk material handling equipment, including belt, drag, en-masse, chain, apron, flexible sidewall, chain-belt, and screw conveyors; bucket elevators; and belt feeders, belt trippers, stackers, reclaimers, and metering bins.

MISSOURI

Burns & McDonnell Process & Industrial Group

9400 Ward Pkwy.
Kansas City, MO 64114
816-333-9400
cageisinger@burnsmcd.com
www.burnsmcd.com
Contact: Caitlin Geisinger

Expertise: Creative, technical, engineering, and management services for the process industries, including food, pharmaceutical, and specialty chemicals.

CDG Engineers

1 Campbell Plz.
St. Louis, MO 63139
314-781-7770
jellington@cdgengineers.com
www.cdgengineers.com
Contact: Jay Ellington

Expertise: Bulk material handling engineering and design services, including transfer, loading, unloading, storage, reclaim, and support facilities, and systems for mining, utility, and industrial organizations.

Clark, Richardson, and Biskup Consulting Engineers

1251 NW Briarcliff Pkwy., Ste. 500
Kansas City, MO 64116
816-880-9800
sue.dreckman@crbuser.com
www.crbuser.com
Contact: Sue Dreckman

Expertise: Chemical and process systems; mechanical, electrical, and utilities facility design; environmental permitting; and validation, instrumentation, and automation.

Penta Engineering

10123 Corporate Square Dr.
St. Louis, MO 63132
314-878-0123
busdev@penta.net
www.penta.net
Contact: Manoj Mohan

Expertise: Engineering and construction services for the cement, lime, ash, slag, metallurgical, and related industries with a focus on material handling systems.

MONTANA

Worley

2220 Grant Rd.
Billings, MT 59102
406-245-4455
ben.wardell@worley.com
www.worleyparsons.com
Contact: Ben Wardell

Expertise: Engineering, procurement, and construction management services for the energy and resources industries.

NEW JERSEY

El Associates

8 Ridgedale Ave.
Cedar Knolls, NJ 07927
973-775-7777 ext. 110
ed_norin@eiassociates.com
www.eiassociates.com
Contact: Edward Norin

Expertise: Architectural, engineering, material handling, and construction services for the food, pharmaceutical, specialty chemical, and related process industries.

NEW YORK

ATSI

415 Commerce Dr.
Amherst, NY 14228
716-691-9200
sales@atsi.com
www.atsi.com
Contact: Reynold Koopman

Expertise: Installation engineering for the chemical process and metals industries, including material handling, emissions control, process engineering, finite element analysis, and customized process control software.

NORTH CAROLINA

Gooch Engineering Associates

PO Box 10308
Southport, NC 28461-0308
603-536-8180
info@goocheng.com
Contact: Lawrence R. Gooch

Expertise: Facilities and plant planning and design; process design and engineering; equipment specification and design; and consulting related to powder and bulk storage, feeding, weighing, and transfer systems for the rubber and plastics compounding, pelletizing, and process industries.

NORTH DAKOTA

Vigen Construction

Expertise: Planning, design, and construction of grain elevators and

Copyright CSC Publishing

terminals, bulk material storage structures, conveying systems, milling and process facilities, plant renovation and machinery upgrades, dust control systems, and scales.

OHIO

AMG Engineers and Consultants

1497 Shoup Mill Rd.
Dayton, OH 45414-3841
937-274-0736
sfeller@amg-eng.com
www.amg-eng.com
Contact: Scott Feller

Expertise: Process and facilities design, mechanical design, structural design, instrumentation, computer engineering, and pilot plant services.

Atmos360

4690 Interstate Dr., Ste. A
Cincinnati, OH 45246
513-889-5069
info@atmos360.com
www.atmos360.com
Contact: Icy Williams

Expertise: Engineering of industrial ventilation systems, material handling, packing systems, manufacturing equipment rebuilds, and field services.

Belcan Engineering Group

10200 Anderson Way
Cincinnati, OH 45242
513-891-0972
corporate@belcan.com
www.belcan.com
Contact: Michael Cruse

Expertise: Engineering and design services for all disciplines of powder and bulk solids manufacturing.

Erie Engineering and Construction

9559 Winchester Vly.
Chesterland, OH 44026
440-552-3415
kdavis@erieec.com
www.erieec.com
Contact: Katie Davis

Expertise: For industrial, process, food, and government markets, the company offers complete project delivery solutions, from conception through startup and operations, including multidiscipline and process design and engineering; owner's engineering; project management and construction management; and consulting. Company is a women-owned small business.

Hixson

659 Van Meter St.
Cincinnati, OH 45202
513-241-1230
aei@hixson-inc.com
www.hixson-inc.com
Contact: Mike Steur

Expertise: Engineering, architectural, and project management services for food, dairy, and pharmaceutical facilities.

Matrix PDM Engineering

8760 Orion Pl., Ste. 100
Columbus, OH 43240
614-890-3456
vikasmoharir@matrixpdm.com
www.matrixpdm.com
Contact: Vikas Moharir

Expertise: Architectural, engineering, and project management services, including bulk material handling, silo storage, electrical, and control systems for the energy, food, process, and industrial industries.

Middough

1901 E 13th St., Ste. 400
Cleveland, OH 44114
216-367-6000
contactus@middough.com
www.middough.com
Contact: John Micheli

Expertise: Engineering, systems design, and project management services for bulk material handling, blending, batching, and conveying for the food, pharmaceutical, consumer products, pet food, grain, metals, glass, chemicals, and related industries.

Process Plus

135 Merchant St., Ste. 300
Cincinnati, OH 45246
513-742-7590
jkoehler@processplus.com
www.plusgroups.com
Contact: John Koehler

Expertise: Multidiscipline engineering and architecture firm specializing in process engineering and design, facilities engineering and design, and project services.

SSOE Group

1001 Madison Ave.
Toledo, OH 43604
419-255-3830
info@ssoe.com
www.ssoe.com
Contact: Jim Lewis

Expertise: Comprehensive engineering and architectural services for the bulk material handling industries, including concept development, capabilities

studies, process design and simulation, complete facility and equipment design, systems integration, cost estimating, project management, and installation and startup support; new production plant development from concept through commissioning for domestic and international projects.

Varo Engineers

2751 Tuller Pkwy., Ste. 100
Dublin, OH 43017
614-459-0424
www.salasobrien.com/varo
Contact: Patti Sullivan

Expertise: Material handling and processing engineering design and construction management, including turnkey system and component integration, servicing the glass, plastics, food, and petrochemical industries.
