

PREVIEW: Powdermet 2017

Powdermet 2017 will take place at the Bellagio Hotel in Las Vegas, NV, on June 13-16. The event will offer a conference program with more than 200 presentations covering the latest in powder metallurgy, particulate materials, and metal additive manufacturing, as well as an exhibition hall with more than 100 exhibitors. The event is held in conjunction with the Additive Manufacturing with Powder Metallurgy conference. Conference session topics include “Particulate Production,” “Ferrous Metals,” and “Materials for Extreme Applications.” The event is sponsored by the Metal Powder Industries Federation (MPIF) and APMI International.
