

PREVIEW: PowderMet2018

PowderMet2018 — The International Conference on Powder Metallurgy & Particulate Materials will take place June 17-20 at the Grand Hyatt San Antonio in San Antonio, TX. The event will have a conference and exhibition showcasing the latest in powder metallurgy, particulate materials, and metal additive manufacturing process equipment, powders, and products. The event is organized by the Metal Powder Industries Federation (MPIF) and APMI International and colocated with AMPM2018 — the Additive Manufacturing with Powder Metallurgy conference.
