ICACC19 – The 43rd International Conference and Exposition on Advanced Ceramics and Composites will take place January 27-February 1 at the Hilton Daytona Beach Oceanfront Resort in Daytona Beach, FL. Organized by The American Ceramic Society (ACerS), the event features a technical program and an exhibition and will showcase the latest in advanced ceramics, armor ceramics, solid oxide fuel cells, ceramic coatings, bioceramics, and more. This year's

event will feature four sessions focused on emerging technologies, the 8th Global Young Investigator Forum, and a special session focused on diversity, entrepreneurship, and commercialization.

A special two-day course is available in conjunction with ICACC19. The course addresses the mechanical properties of ceramics and glasses for elastic properties, strength measurements, fracture parameters and the indentation hardness.
