**P**OWTECH 2019, the international trade fair for mechanical processing technologies and instrumentation will be held April 9-11 at the Exhibition Centre Nuremberg in Nuremberg, Germany. The show is one of the largest international bulk solids handling and processing events of the year. The show is expected to draw nearly 15,000 attendees and more than 900 exhibitors from across the globe. The exhibition will cover everything from basic processing technologies for power and bulk materials to plant engineering and processing components and nanoparticle technologies.

In addition, PARTEC 2019, the international congress on particle technology, will be colocated with POWTECH. The event brings together scientists and engineers from around the world and covers particle formation, agglomeration and coating processes, industrial applications for particles, and more.
