### COLUMNS

- 24** **Drying Desk: Tips** for continuous fluid-bed dryer design: Part II  
*John J. Walsh*
- 72** **Agglomeration Advisor:** Using powder pumps in wet agglomeration processes  
*Greg Mehos*

**On the cover:** Model R24 intensive mixer is shown granulating clay for fine ceramics in Central Europe. Mixer includes automatic dry material and liquid feeding, handles 300-liter batch sizes, and has a production capacity up to 30 metric tons per hour. Mixer features an inclined rotating mixing pan; a robust, service-friendly rotating mixing tool, and stationary bottom and wall scraper. ### PUBLISHER'S NOTE

- 8** **Welcoming change**  
*Lee Hetherington*

### MIXING AND BLENDING

- 38** **Case history:** Mixer going strong nearly 40 years later
- 44** **Product summary**
- 84** **Suppliers' tips**  
Suppliers discuss ways to prevent mixed material from demixing during processing.

### GENERAL FEATURES

- 54** **Using spouts and filters to control dust during material loading**  
*Kevin R. Peterson*
- 62** **The challenges of handling metal powders for additive manufacture**  
*Nick Hayes*
- 70** **EnviroPlant**
- 76** **Show preview:** International Conference and Exposition on Advanced Ceramics and Composites 2019
- 77** **Show preview:** Powtech 2019
