---

Interphex will take place April 2-4 at the Javits Center in New York City, NY. The annual pharmaceutical trade show and exhibition is expected to attract more than 12,000 global industry professionals and 625 exhibitors and offers demonstrations, partnering opportunities, networking, and a conference.

Interphex will have a 3-day technical conference in addition to the exhibition. Conference topic tracks include the following:

- INNOPHEX
- Strategies for Flexible Manufacturing Efficiencies & Improvements
- Optimizing Facilities through Innovation & Technologies
- Managing the Interface with Risk Management and Quality Systems
- Biotech and the Acceleration to Market
- Alignment of Facility, Suitability with Formulation Capability and Stability Across Supply Chain
- Leveraging Partnerships with CMO/CDMO Capability to Advance Process Innovation

This year, Interphex will be collocated with Innophex, a new trade show focused on cell processing, gene therapy, and the current trend of automation and data exchange in manufacturing technologies (Pharma 4.0). Innophex will feature dedicated exhibits, a technical conference, and networking opportunities on various topics including robotics, 3D printing, augmented reality and virtual reality, the internet of things (IoT), and information management and data integrity.
