

SHOW PREVIEW

The Chem Show

Where: Javits Center - New York, NY

When: October 22-24

More Information: International Exposition | 203-221-9232 | info@chemshow.com

Show Website: www.chemshow.com

The Chem Show 2019 will take place October 22-24 at the Javits Center in New York, NY. This biennial event provides conferences for those in the chemical process industries, as well as an exhibition featuring process equipment, products, and services. The event is for professionals involved in processing chemicals, pharmaceuticals, foods, or other bulk solids that require mixing, blending, separating, or any process application.

Event includes 30 seminars covering topics that include: maintenance, repair, and overhaul; emerging technologies, future trends, and innovations; industry standards, regulations, and initiatives; process automation, control, and industrial software; and more. The conference program is free for all exhibition attendees.

The Chem Show partners with onPeak to coordinate the official hotel program for the 2019 event. Visit www.chemshow.com/travel for hotel booking information.
